

DIPAK KHANDAGALE

AI/ML Engineer

Pune, India | +91 8390139357 | khandagaledipak47@gmail.com | linkedin.com/in/dipakkhandagale | github.com/Dipakk7 | dipakkhandagale.vercel.app

SUMMARY

AI/ML Engineer with hands-on experience building end-to-end AI solutions using Machine Learning, Deep Learning, Generative AI, Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), Agentic AI, and Computer Vision. Experienced in developing AI-powered platforms, intelligent assistants, resume analysis systems, and computer vision applications using Python and FastAPI. Skilled in TensorFlow, Scikit-learn, LangChain, Ollama, ChromaDB, PostgreSQL, REST APIs, and AI evaluation, with a focus on building reliable and practical AI solutions.

TECHNICAL SKILLS

Programming: Python, SQL

AI & Machine Learning: Machine Learning, Deep Learning, Generative AI, Large Language Models (LLMs), Agentic AI, Retrieval-Augmented Generation (RAG), Computer Vision, TensorFlow, Scikit-learn, CNN, LSTM

Generative AI & LLM Tools: LangChain, Ollama, ChromaDB, Qwen 2.5

Frameworks & Libraries: FastAPI, Pandas, NumPy, Matplotlib, Seaborn

Databases: PostgreSQL, MySQL, SQLite

Deployment & APIs: REST APIs, API Integration, API Testing, JWT Authentication, OAuth2

Tools & Platforms: Git, GitHub, VS Code, Jupyter Notebook, Google Colab, Postman

PROFESSIONAL EXPERIENCE

AI Intern | RaiTalk | Jan 2026 – May 2026

- Evaluated 50+ AI prompt variations to assess response quality, consistency, and model performance.
- Performed AI output evaluation, workflow validation, and functional testing across real-world use cases.
- Conducted API integration testing, identified response issues, and collaborated with developers to improve application reliability.
- Validated AI-generated outputs, documented defects and test results, and supported continuous improvement of AI models and workflows.

PROJECTS

Scorelia – AI Career Intelligence Platform | Python, FastAPI, React, PostgreSQL, Ollama

- Built an AI career platform featuring resume analysis, ATS scoring, job matching, AI mock interviews, and personalized career roadmaps.
- Engineered a multi-agent AI system using RAG, LangChain, Ollama, Qwen 2.5, and ChromaDB to deliver context-aware career guidance.
- Developed secure backend services with FastAPI, SQLAlchemy, PostgreSQL, JWT authentication, and OAuth2, with automated API testing using Pytest, HTTPX, and AnyIO.

Deepfake Video Detection | Python, TensorFlow, FastAPI

- Developed a deep learning-based video classification system using ResNet50 and BiLSTM to detect manipulated videos.
- Trained and evaluated the model on 400 real and deepfake videos, achieving 85% accuracy through preprocessing, feature extraction, and model optimization.
- Implemented face detection, frame extraction, and temporal feature learning, and deployed the model with FastAPI and REST APIs for real-time deepfake detection.

Real-Time Face Recognition Attendance System | Python, OpenCV, YOLO, FastAPI

- Built an AI-powered attendance system using YOLO and OpenCV for real-time face detection and recognition.
- Implemented face recognition for 50+ registered users and integrated FastAPI with SQLite for automated attendance management.
- Applied image preprocessing, feature extraction, and model evaluation to improve recognition performance.

EDUCATION

Bachelor of Technology (B.Tech) – Artificial Intelligence and Data Science

MIT College of Engineering, Chhatrapati Sambhajinagar | Nov 2022 – July 2026

CERTIFICATIONS

- AI Foundations Associate** – Oracle | 2025
- Generative AI Professional** – Oracle | 2025
- Artificial Intelligence Fundamentals** – IBM SkillsBuild | 2026
- AI/ML Virtual Internship** – Kodacy & SPACE | 2026
